The screenshot displays the iMagineM Page Builder interface. At the top, a 'PageBuilder status' notification indicates 'Using Page Builder. (Change)' with a red information icon. The main workspace is titled 'iMagineM Page Builder' and features a top navigation bar with tabs for 'Elements', 'Layout', 'Media', 'Portfolio', and 'Posts'. Below this is a 'LIVE SEARCH' bar. The central area contains a grid of 27 block sections, including Accordions, Alert, Button, Callout Box, Checklist, Circular Counter, From-To Counter, Google Map, Icon Generator, Info Boxes, Page Share, Pricing Service, Pricing table, Progress bar, Pullquote, Richtext Box, Section Heading, Service List, Services, Shortcode, Sociallink, Staff, Tabs, Testimonials, and Toggle. At the bottom of the workspace are 'Builder Helpers' (Preset Templates, Export Blocks, Import Blocks, Undo, Redo, Clear All) and a 'Template Settings' bar (Select Template, Delete Template, Save Template, Export Templates, Import Templates). A 'Highlighted block indicating recent action' is shown in the workspace, with a red information icon and a green timer icon. Annotations with arrows point to these various components.

3 Apply and Close.

Columns

Organize the Blocks in Grids

Add a Column

The screenshot displays the iMagine Page Builder interface. At the top, the title bar reads "iMagine Page Builder". Below it is a navigation menu with tabs for "Elements", "Layout", "Media", "Portfolio", and "Posts". The "Layout" tab is selected and highlighted with a red circle labeled "1". Below the navigation menu is a "LIVE SEARCH" bar. In the center, there is a yellow "Add a Column" button with a red circle labeled "2" next to it. Below this button are three options: "Column Container" (highlighted with a red circle labeled "3"), "Dividers", and "Horizontal Line". Below these options is a toolbar with buttons for "+ Preset Templates", "Export Blocks", "Import Blocks", "Undo", "Redo", and "Clear All". The main workspace shows a blue header bar labeled "COLUMN CONTAINER 12/12" with a hamburger menu icon on the right. Below the header bar is a large white box with the text "Drag block items into this box". At the bottom of the interface is a footer area with a "Select Template" dropdown menu, a "Delete Template" button, a "Save Template" button, an "Export Templates" button, and an "Import Templates" button.

Column with Blocks added inside it.

Edit Columns

Edit Columns to apply paddings and backgrounds

Edit Column Container

The screenshot displays a 'COLUMN CONTAINER' interface. At the top, there is a blue header bar with the text 'COLUMN CONTAINER 12/12' and a menu icon. Below the header, the text 'Drag block items into this container' is visible. The main area contains a 'SECTION HEADING' block (12/12) with a red 'H' icon, and three 'SERVICES' blocks (3/12) each with a pink edit icon. A vertical scrollbar is on the right side of the container. The 'Edit Column Container' toolbar is positioned at the top right of the container, showing icons for undo, edit, and delete.

Adding Column IDs and Notes

Column ID

Column IDs can be used for various purposes such as for Jump links or CSS style targeting to isolate others.

Block Note

Add a small note to make it easy for column identification within pagebuilder when there are multiple columns.

Column Container

Column ID
Enter a unique ID for this column.

 1

Block Note
Add a note for self - to identify this block.

 2

COLUMN CONTAINER 12/12 a-unique-id **1**

A note to easily identify the block **2**

Drag block items into this box

+ ACCORDIONS 6/12

+ SERVICES 3/12

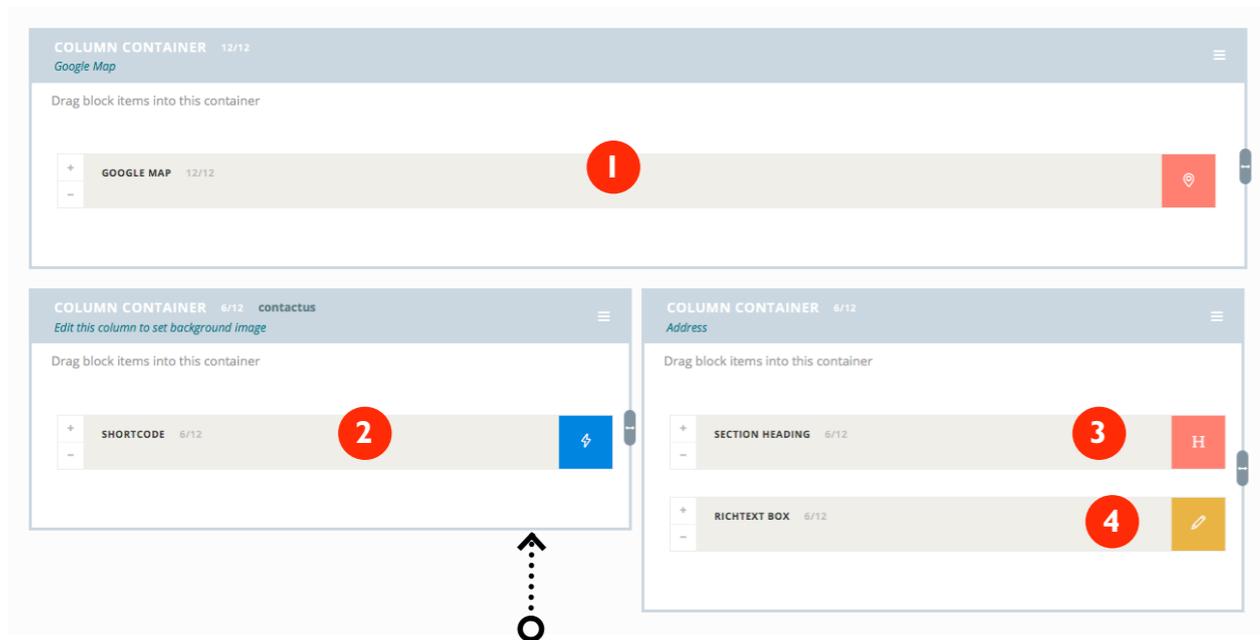

+ SERVICES 3/12

Row of Columns

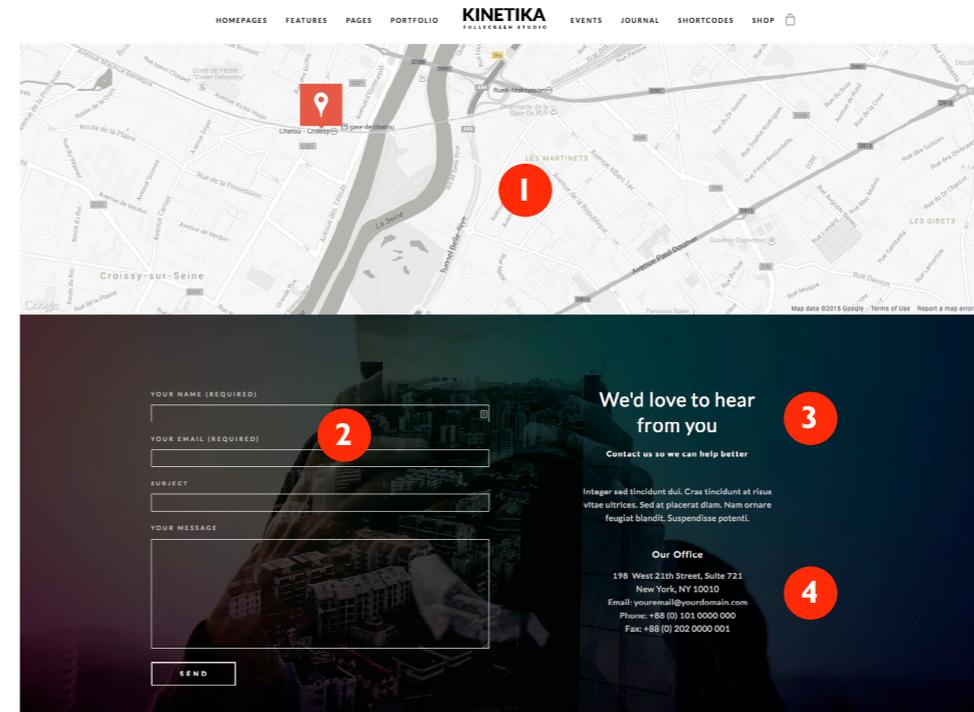

Row of columns

In a row of columns the properties such as background color, background image or margins are applied from the first column to the whole row.

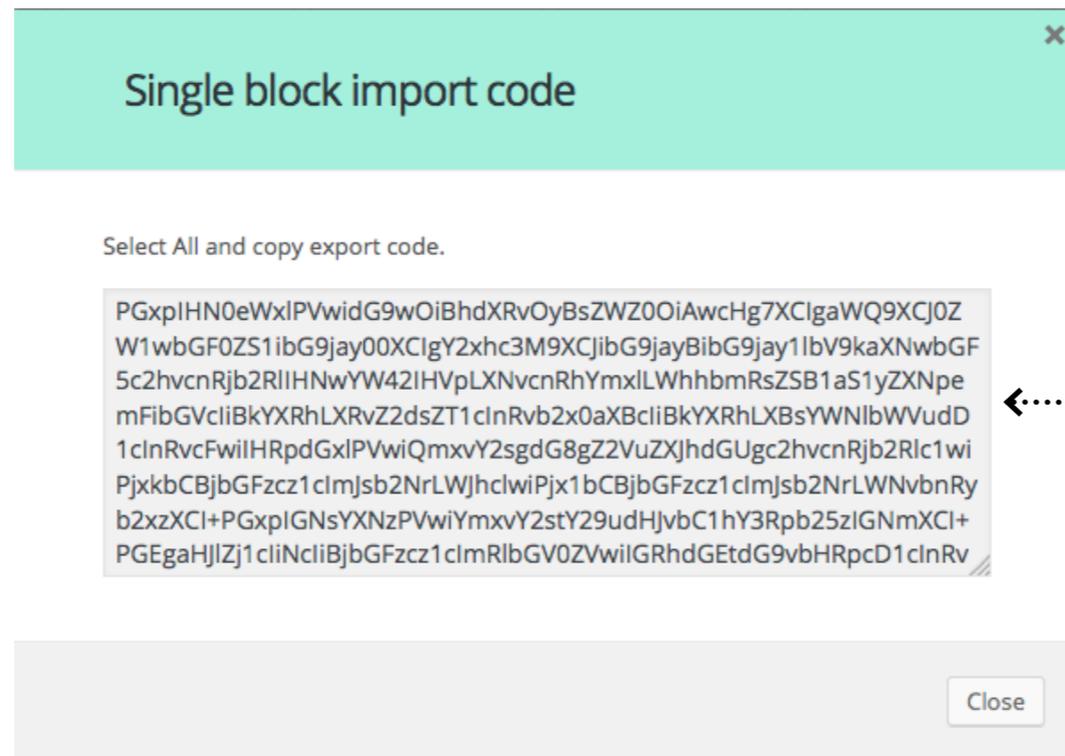

Background from 1st Column in the Row.

Background is set from first column in the Row.

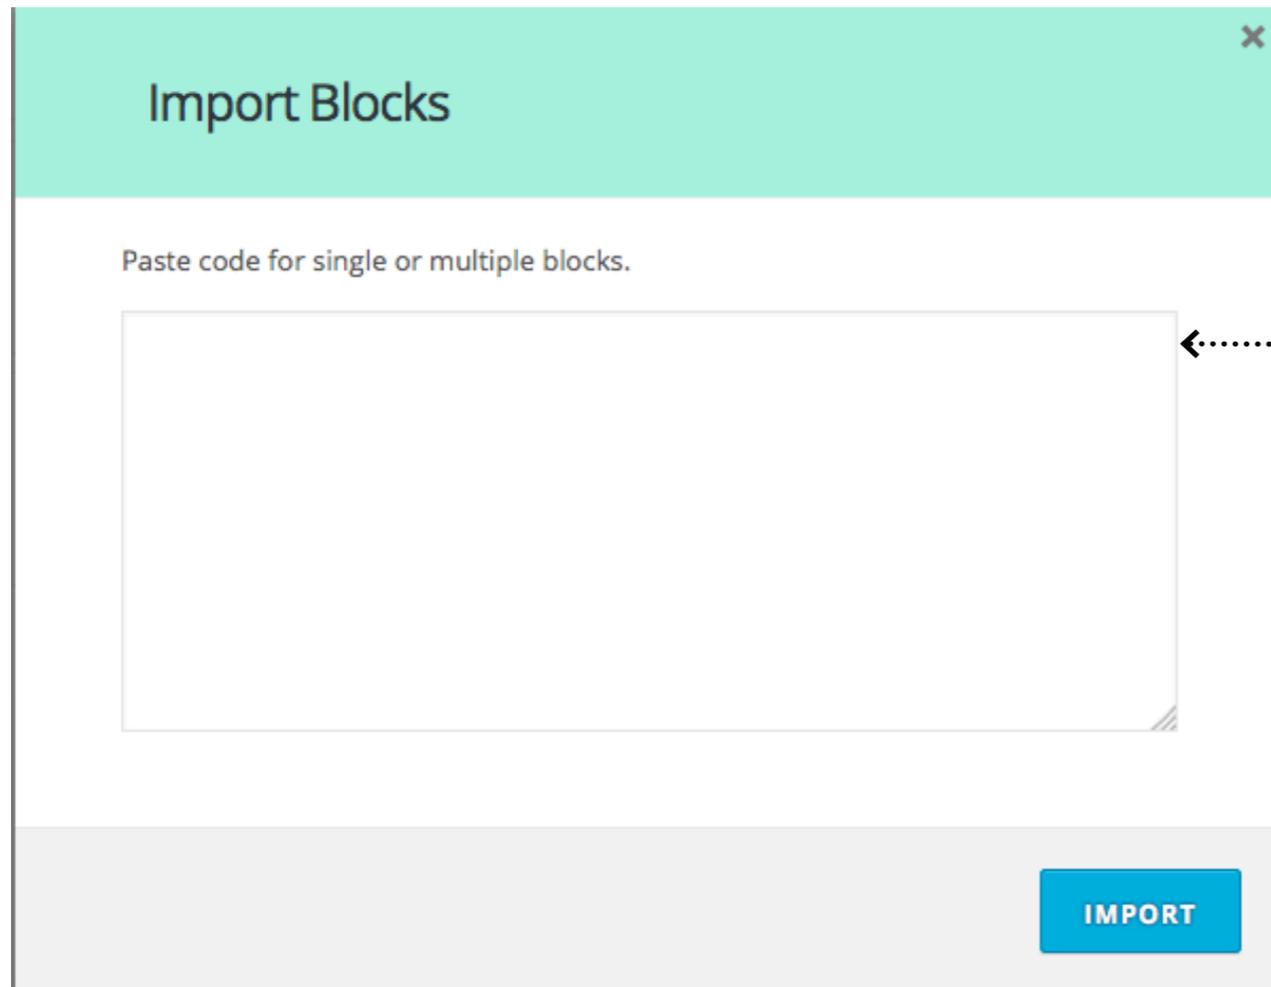

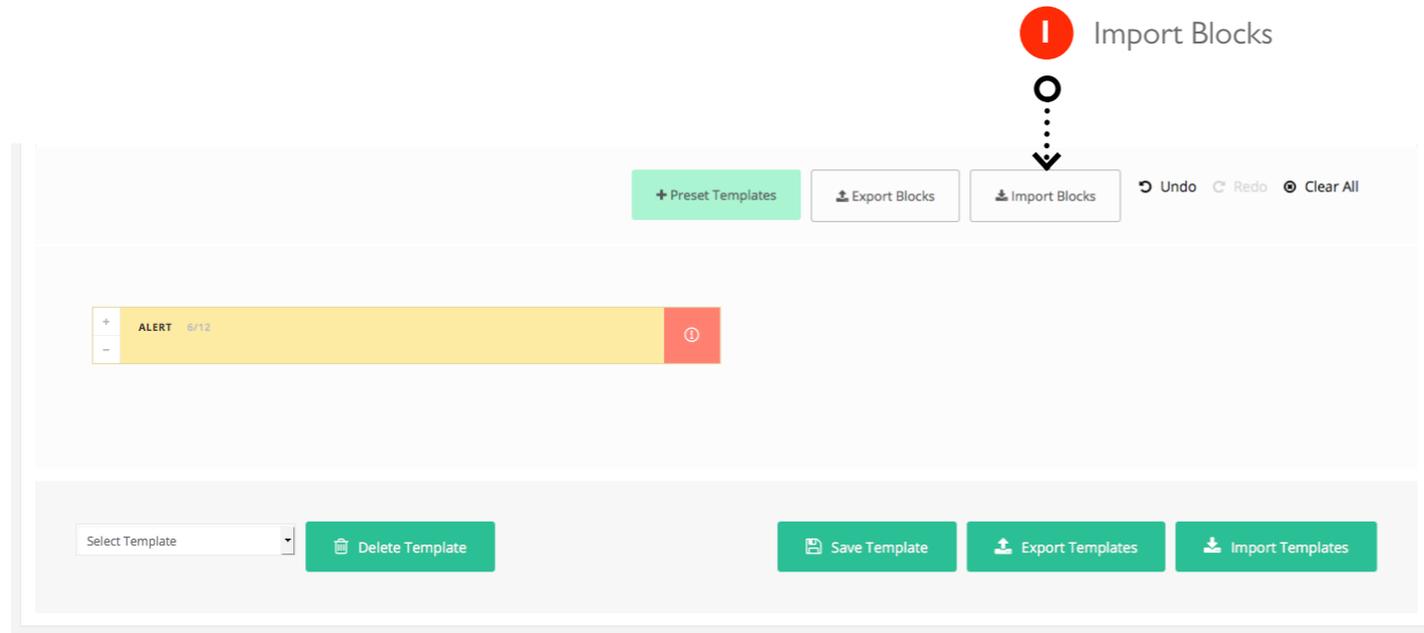

Export & Import Blocks

2

Single block import code

Select All and copy the export code which can later be used to import the blocks.

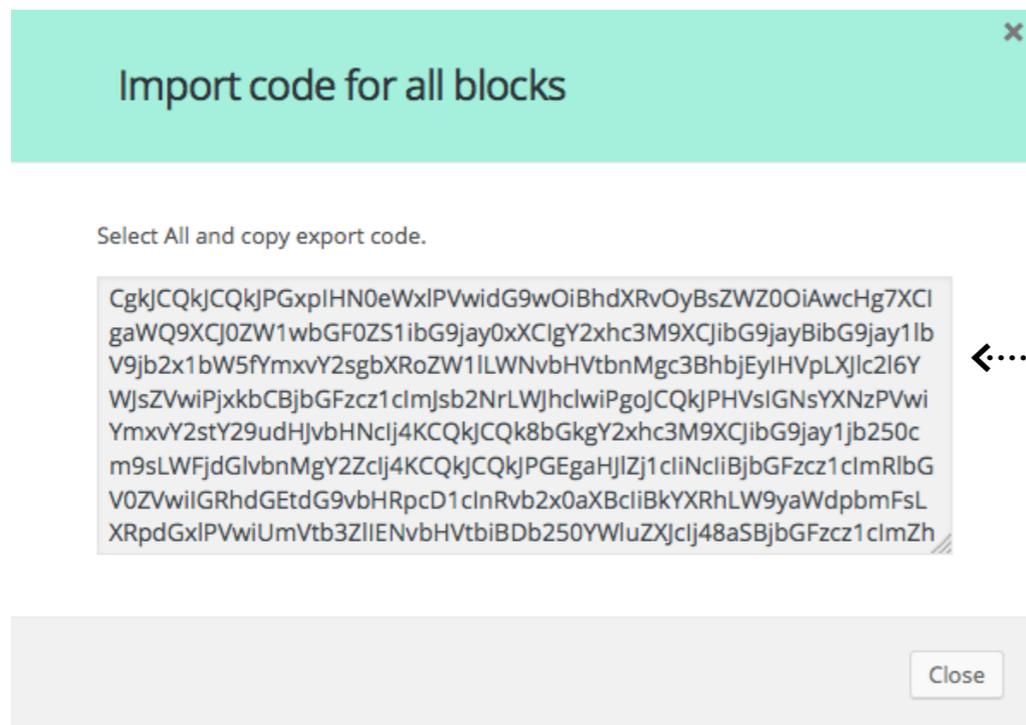

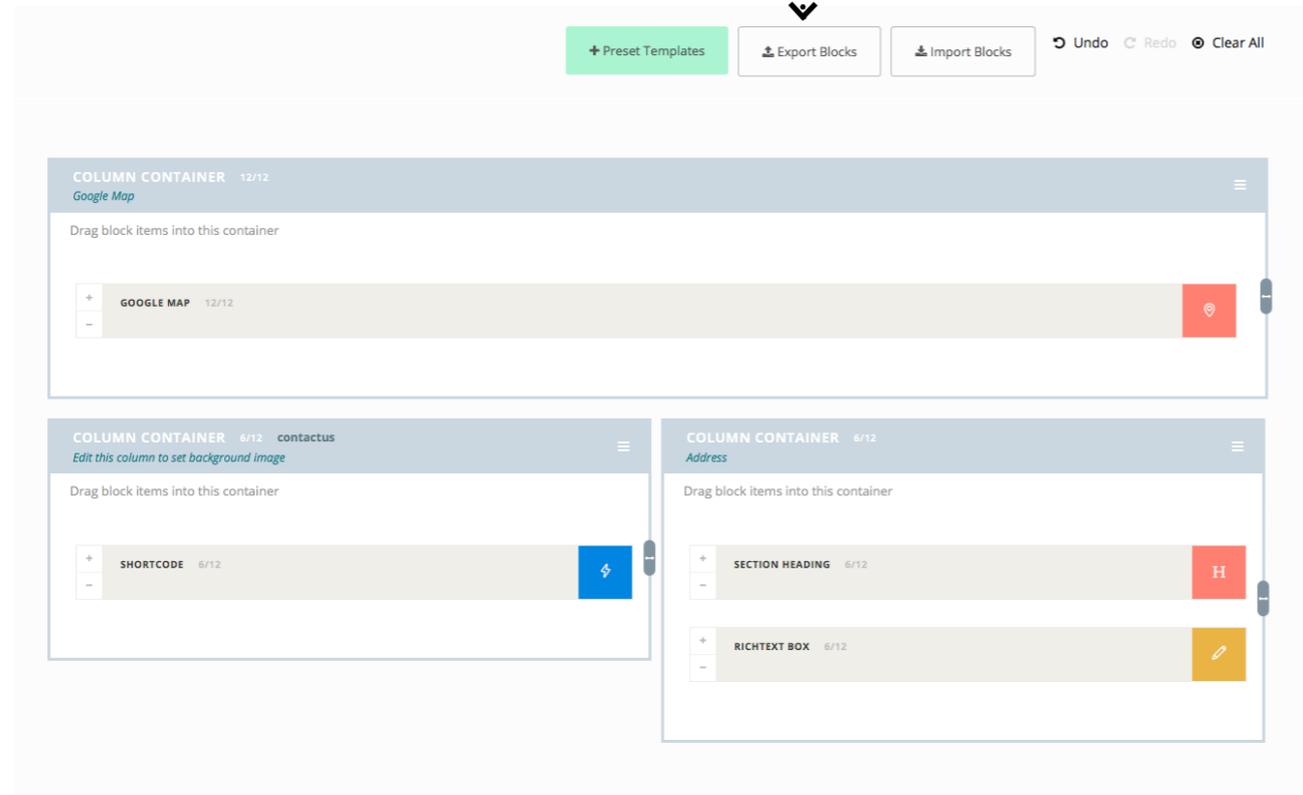

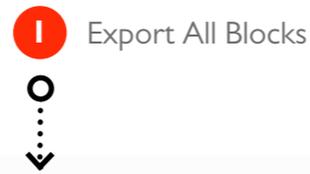

2

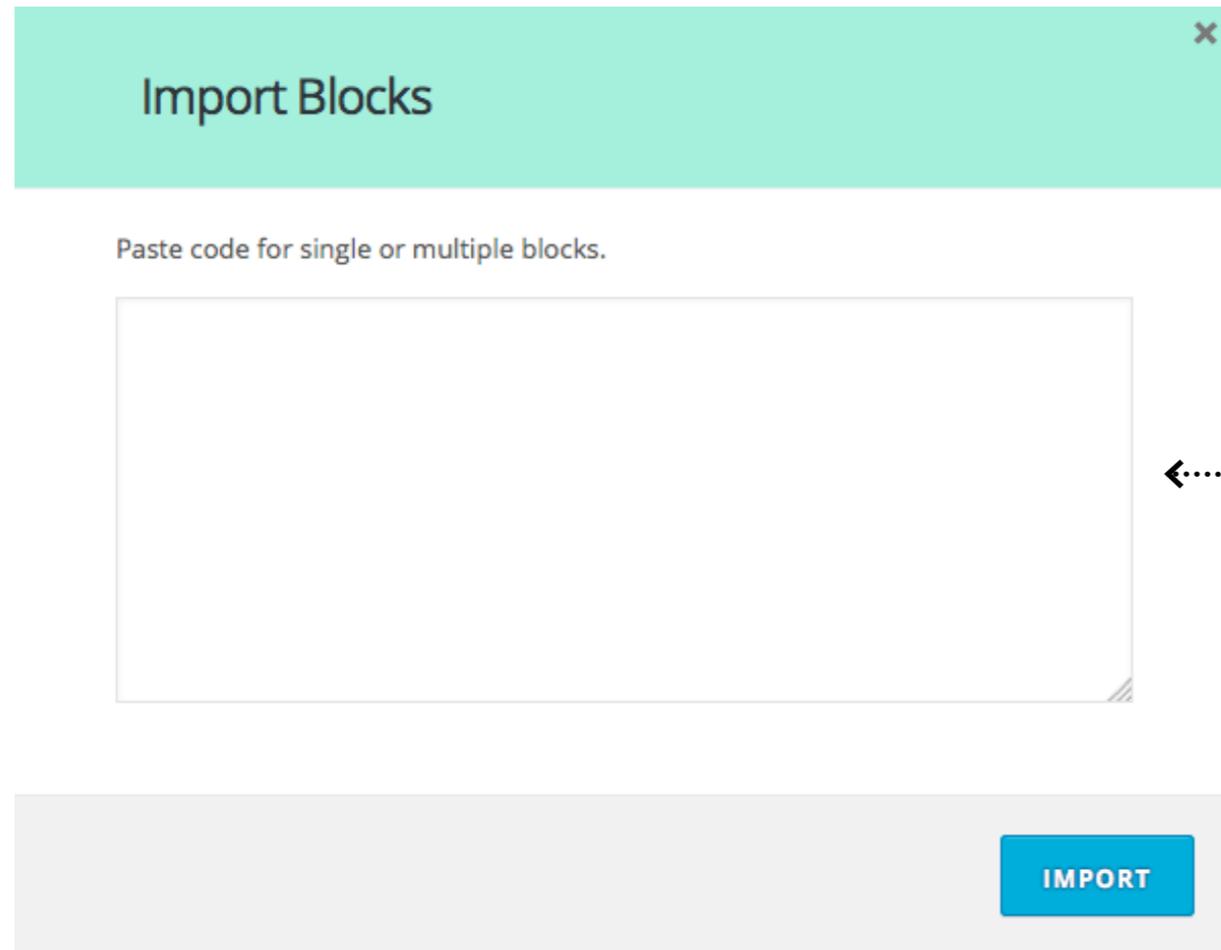

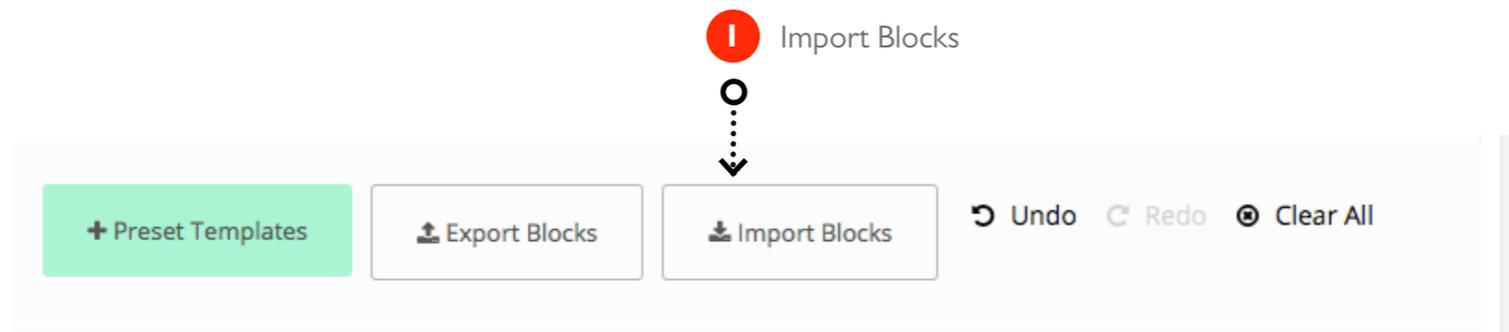

Import Blocks

Paste code and press import button to import single or multiple blocks. New blocks will appear at the end of existing blocks.

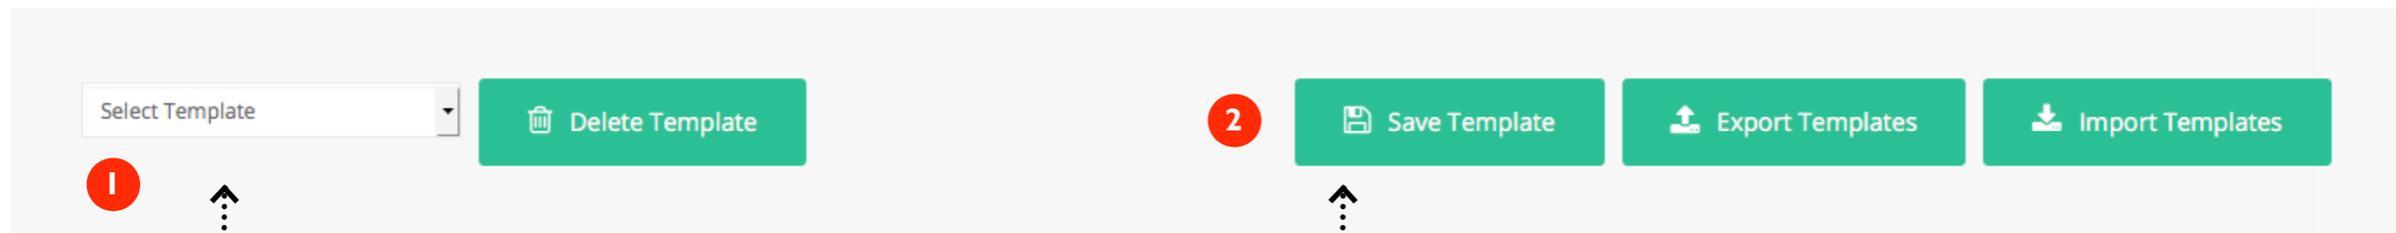

- 2 Import code for all blocks**
Select All and Copy the export code.
Export code contains all blocks seen in page builder.

Import Multiple Blocks

2 Import Blocks
Paste code to import all blocks.

*Managing
Page Builder
Templates*

1

Saved Template selector.

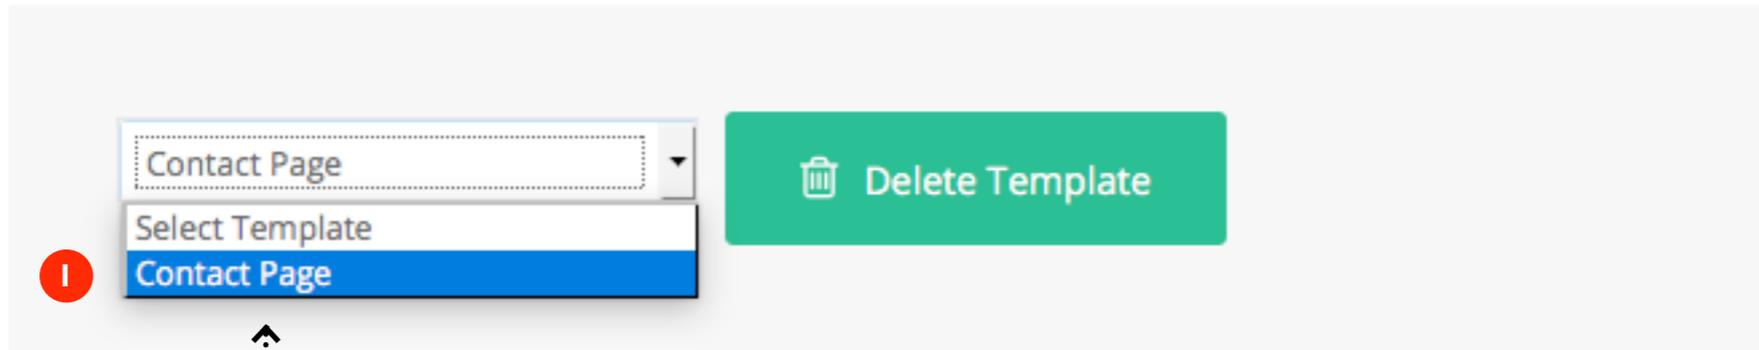

Saved Templates will appear in this selector.

2

Save Template

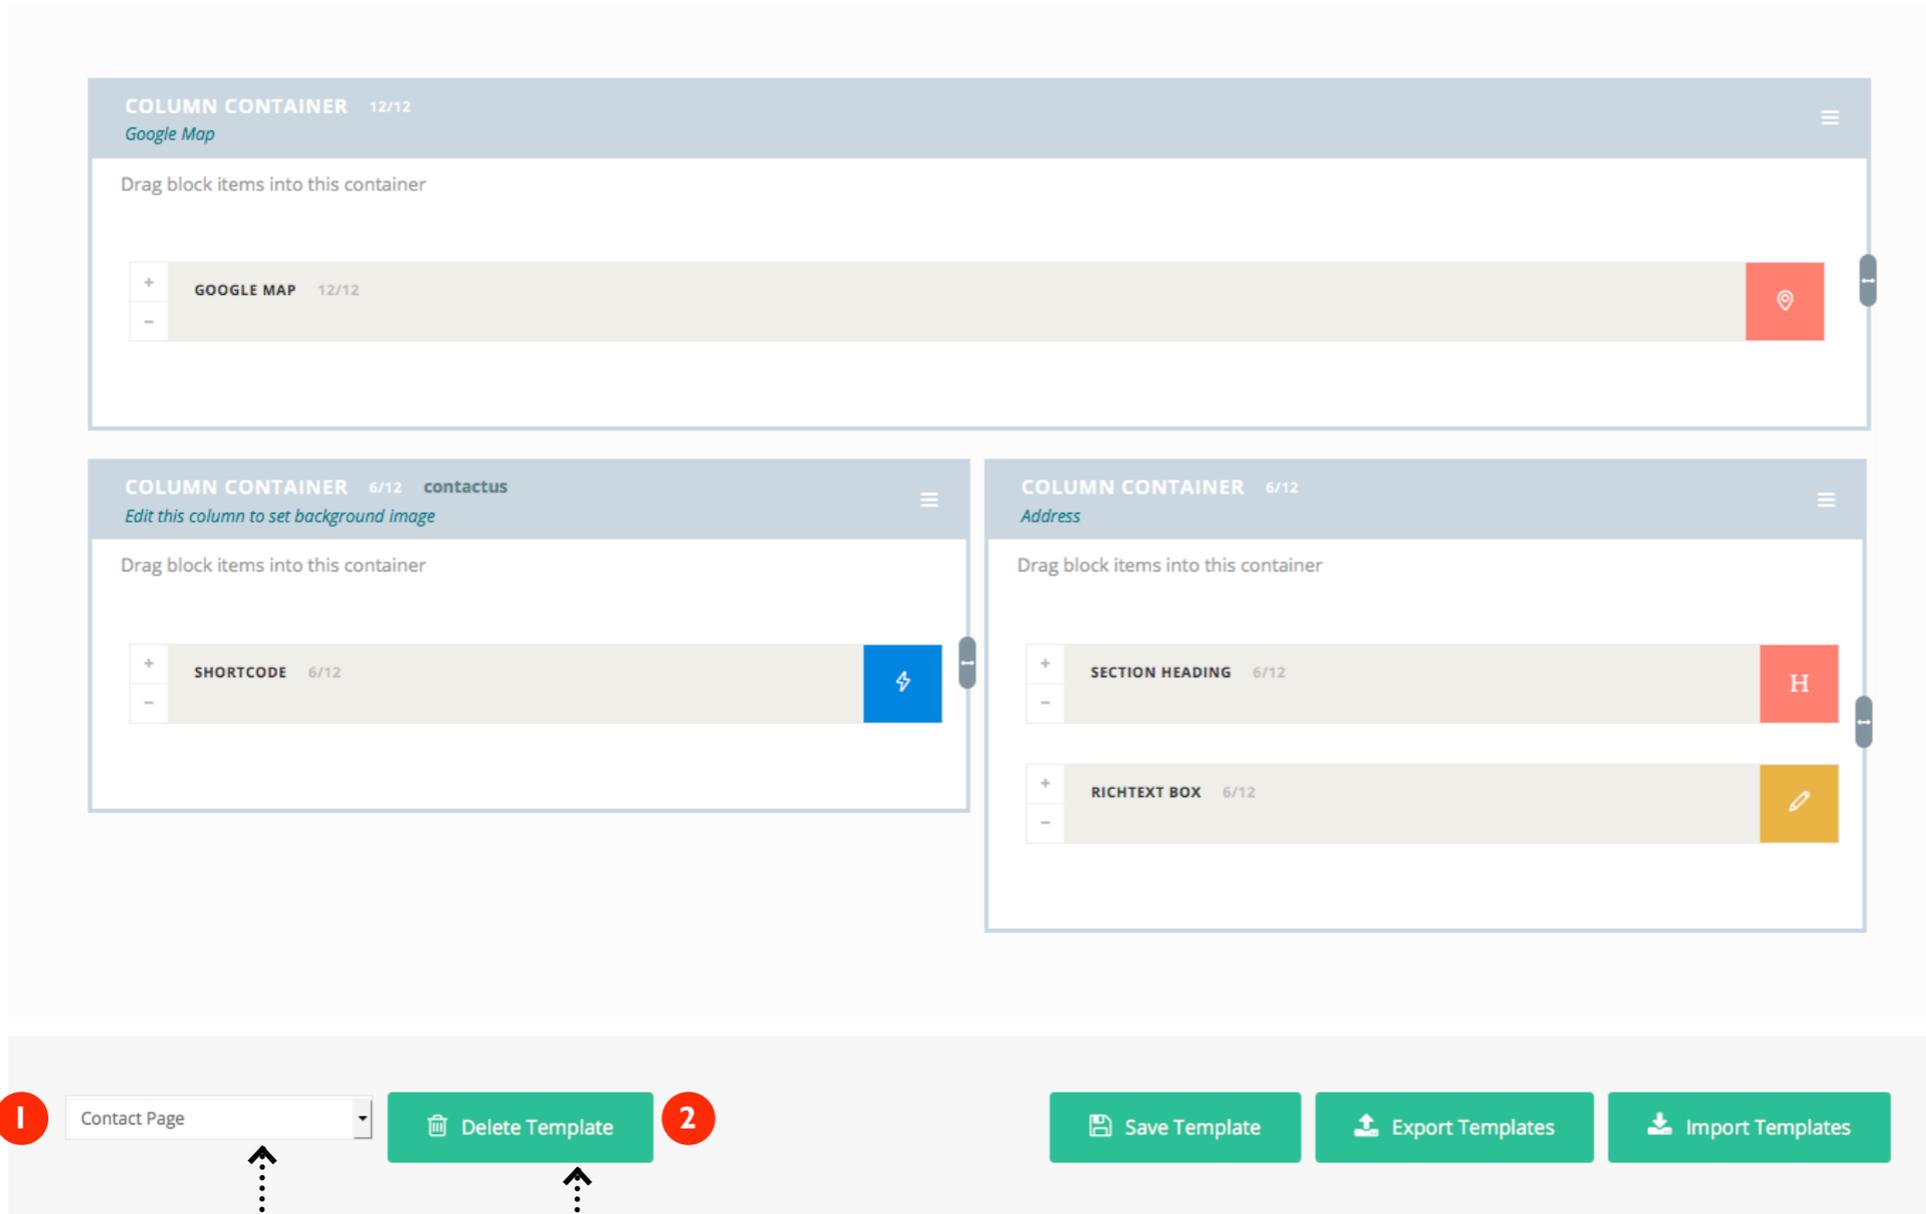

Click this button to Save Template. Enter a unique template name and choose 'Save'

Template loader

Simply choose a saved template from this list to load the saved template.

Deleting a Saved Template

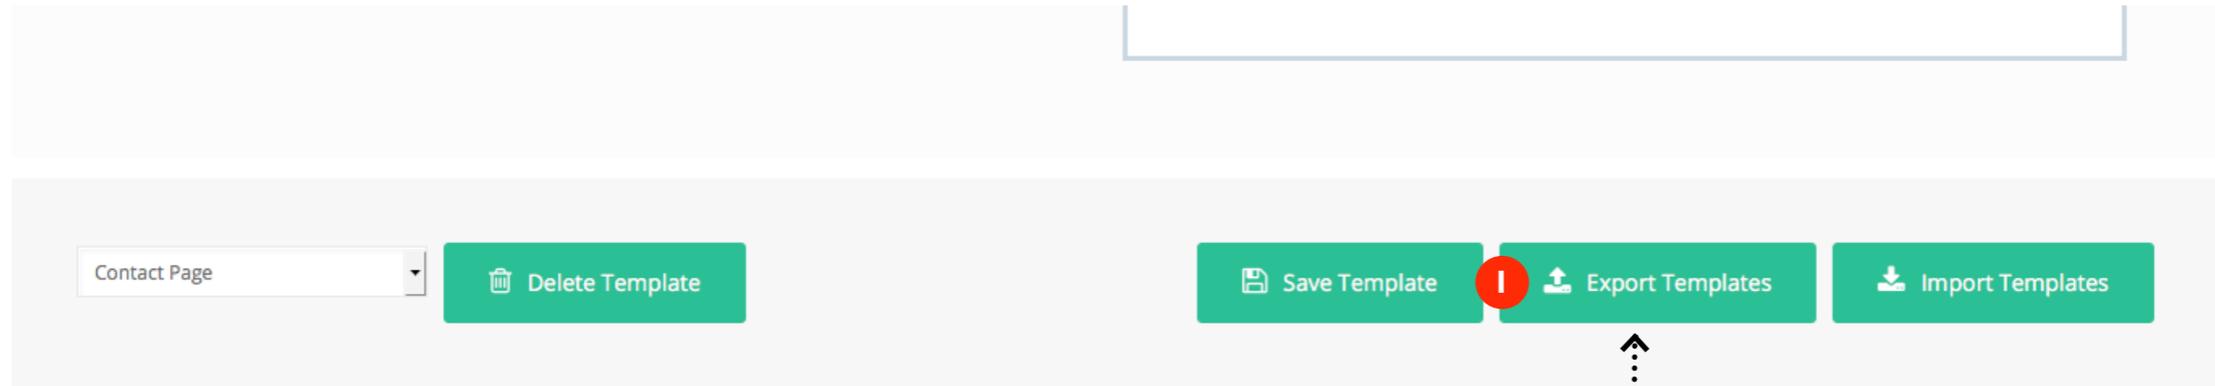

Template selector

Choose template to delete.

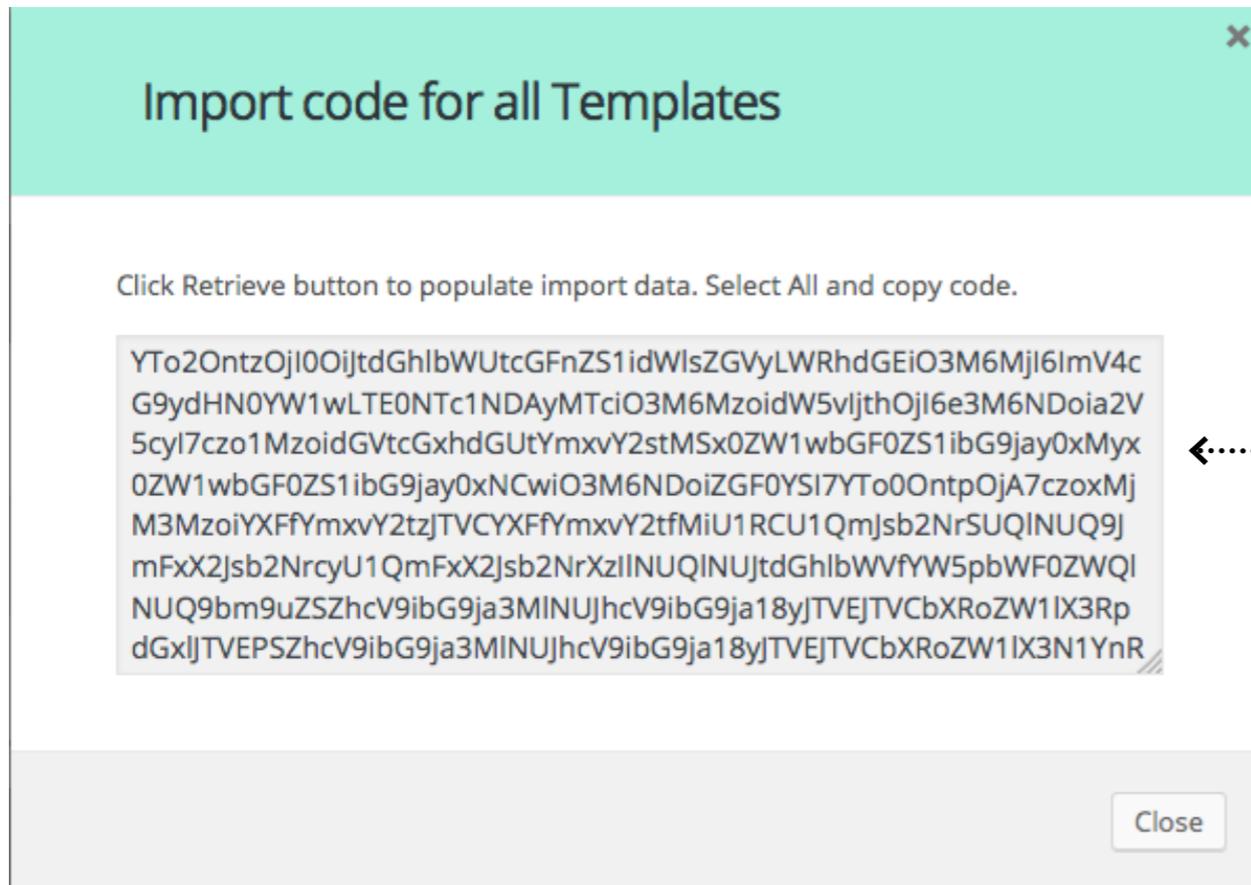

Delete Template

Click Delete Template to delete the selected template from the list. This process doesn't undo.

Export Saved Templates

Choose to grab export code for all Saved Templates in the template selector.

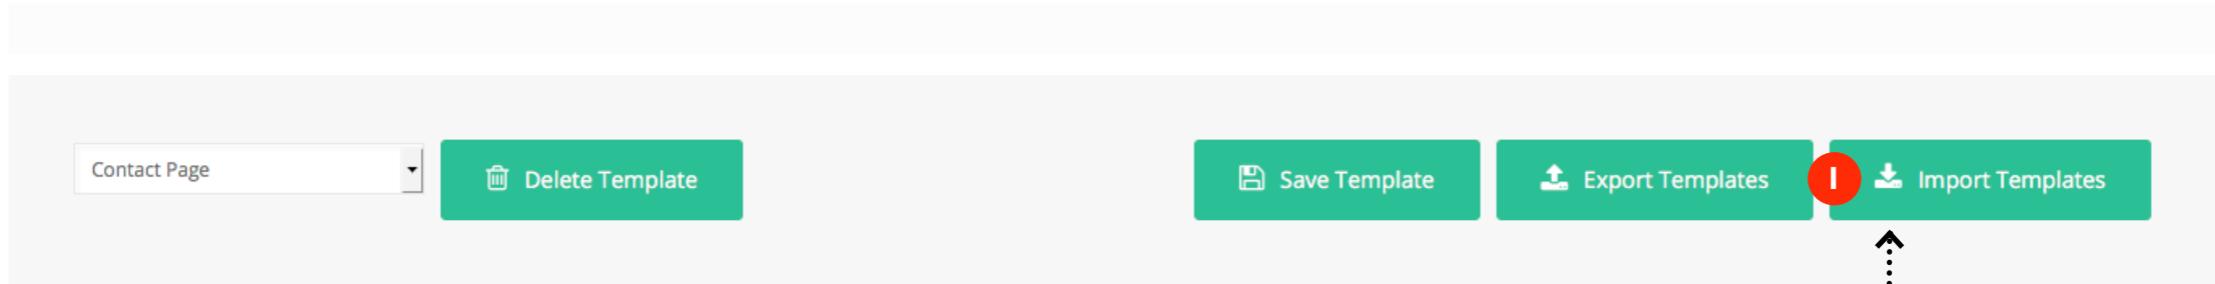

2

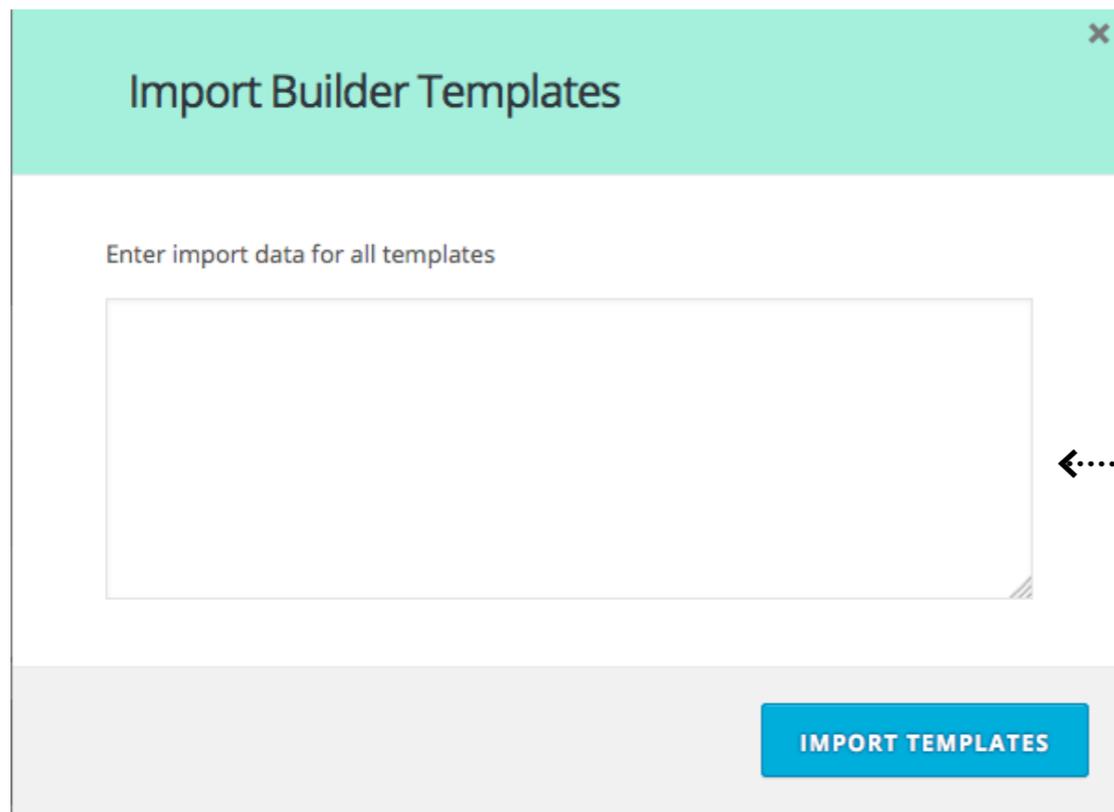

Code for importing.

Select All and copy.

Save these codes in a text file if you wish to keep them for later use.

Import Templates
Click to Import Templates

2

Import Builder Templates
Paste previously copied from
export templates data.
Importing will replace all
existing templates with new
ones.

{ end }

Thank you from iMaginem
themes.

I'd be glad to help you if you have any questions relating to the page builder.
